

Activities for school and youth groups , page 2

The organization of a range of educational activities is an integral part of the château du Haut-Koenigsbourg's public service role to promote a better understanding and greater awareness of culture in general.

These activities are aimed at school and youth groups of all ages and social backgrounds, from nursery school/kindergarten through to high/secondary school groups. Disabled visitors are also fully catered for.

The educational programmes and activities organized in the château are both innovative and diverse in terms of the fields and subject matter that they look at: from history to the French language, architecture, heritage and more, offering a unique opportunity to study the Middle Ages and the 19th and 20th centuries.

You will find practical information and a summary of what we have to offer here:
